

PRESS RELEASE

ESG Action Plan of Neodecortech S.p.A.- Off-setting of approximately 8,000 tons of CO2 equivalent and reduction of approximately 2,400 tons of CO2 equivalent

Filago, 26 January 2022

Neodecortech S.p.A. ("NDT" or the "Company"), one of Europe's top players in the production of decorative papers for laminated panels and flooring used in interior design, listed on the STAR segment of the MTA organized and managed by Borsa Italiana S.p.A., announces that, in line with the ESG Action Plan adopted by the Company on 12th November 2021, with regard to the specific area of GHG emissions and to Scope 1 and Scope 2 reference, in 2021 approximately 7,800 tons of CO2 equivalent were off-set from the Filago and Casoli production sites, equal to the residual emissions of said sites.

During 2021 in fact, in the Filago production site approximately 190 tons of CO2 equivalent were neutralized, thanks to the self-production of electricity by the photovoltaic system running at the Filago plant and 1,700 tons of CO2 equivalent, thanks to the fact that all the electricity of the Filago plant is purchased from renewable sources. The same action was carried forward for the Casoli production site, where approximately additional 720 tons of CO2 equivalent were neutralized

In 2022, other projects aimed at increasing the rate of GHG emissions neutralized will be carried out. More specifically, the first action plan underway consists of the construction of another photovoltaic power plant at the Casoli site. This plant will enable the site to achieve electrical self-sufficiency in the range of 20%.

Finally, always in 2022, in addition to confirming the off-setting of the tons of CO2 eq un-neutralized of the Filago and Casoli production sites, the same will be done for the residual GHG gases generated by Cartiere di Guarcino and Bio Energia Guarcino at the Guarcino production site, where thanks to the renewable biofuel cogeneration plant, deriving from animal by-products, managed in circular economy, it has succeeded to reduce emissions by more than 50%, going from about 42,500 tons to 20,700 tons of CO2 equivalent..

Neodecortech S.p.A.

Neodecortech is one of Europe's top players in the production of decorative papers for laminated panels and flooring used in interior design. The Group's business is in the production of complete and technologically advanced solutions for the realization of interior design projects, covering all stages of the production process for the production of decorative paper, from raw material management, through surface finishing and impregnation, up to the finished product and the management of end-of-line logistics. The Group offers 7 product categories: decorative papers; decorative printings; finish foil; melamine film; PPF and PPLF; laminates; EOS anti-fingerprint surfaces (www.neodecortech.it).
